EMPOWER · WHO WE ARE

Big Five Connect × SupplierAdvisor®

The supply-chain OS for verified trade, built around a verified network of companies.

WHAT IT IS

SupplierAdvisor® is a supply-chain operating system built around a verified network of companies. It is designed to help African SMEs, suppliers and buyers do four things that decide whether a business grows: get found, get verified, get trusted and get paid.

Big Five Connect, part of the Empower side of Big Five Group™, runs SupplierAdvisor®. When an SME can be found, verified, trusted and paid, it can hire, grow and supply with confidence: empowerment in its most practical form, a fair chance to compete.

HOW IT FITS THE GROUP

Big Five Group™ works across eleven pillars in three focus areas: **Feed** (Agri, Foods, Waters), **Educate** (Big Five Learn) and **Empower** (Royal, Connect, Direct, Access, Global, Impact, Foundation). Big Five Connect gives the businesses in that system a verified network to trade on.

Feed. Educate. Empower.

FOUR THINGS THAT DECIDE WHETHER A BUSINESS GROWS

01

Get found

Company-to-company connections, marketplace reach and supplier discovery, so buyers who need exactly what you do can find you.

02

Get verified

Company verification and certificate metadata let counterparties know who they are trading with.

03

Get trusted

Buyers score every delivery on OTIFEF and peer ratings follow the relationship: a reputation you carry into the next deal.

04

Get paid

POs, quotes, orders and invoices sit on the same books, with payments and accounts receivable in the same workspace.

∞

Team seats on the plan

"Across Africa I meet business owners who make good products and give good service, yet struggle to be seen. What is often missing is access to markets, and the proof that opens them."

Dr Craig R. Muller, founder of Big Five Group™, in "Found, verified, trusted and paid: SupplierAdvisor® as a system for empowerment" · bigfivegroup.africa/updates

SUPPLIERADVISOR® · THREE MARKETS

B2B, B2G and B2C on one fabric.

Private trade, public procurement and consumer trust share the same verification and discipline.

Most platforms pick one market. SupplierAdvisor® is built so private trade, public procurement and consumer trust share the same verification, traceability and operating discipline.

B2B

Business to business

Manufacturers, distributors, traders and brands run the full OS: network, buy and sell, inventory, make, ship, finance, SHEQ and quality, with counterparties you can score and prove.

- Verified company graph and OTIFEF ratings
- POs, quotes, orders and invoices on the same books
- Lot holds that stop the ship when QA fails

[Register your company](#)

B2G

Business to government

Public entities and suppliers need transparent procurement, accountable spend and audit-ready trails, not email chains and disconnected spreadsheets.

- Transparent supplier discovery and handshakes
- Documented trade and performance scores
- SHEQ, NCR/CAPA and export packs for scrutiny

[Request government access](#)

B2C

Business to consumer

One free personal wallet. Link any business on the platform to manage that account: shop, subscriptions, bookings, check-in, family, waitlist and medical records. No company needed.

- Free app: shop, book, check in, hire, subscriptions
- Family book, waitlist, .ics calendar, gym door QR
- Pay or send proof of payment

[Create free SA Member account](#)

WHY JOIN · A FABRIC OF TRUST

Verification, peer stars, OTIFEF and RIAD risk live where you buy and sell, so bad counterparties show up before the next PO. Invite suppliers and customers, connect public buyers, and give consumers a path into verified brands: the same fabric of trust.

MULTI-ENTITY · CLEAN DATA

Separate company workspaces, team roles and membership-scoped data: groups and brands stay clean, not tangled in one login. The same login can run a B2B or B2G company and keep a personal SA Member wallet; they never mix.

Market artwork from supplieradvisor.com. B2G workspaces open only after a SupplierAdvisor® admin approves the request.

Trust is earned on real trade.

Not claimed in a brochure: OTIFEF scores, peer ratings and verification live where you buy and sell.

OTIFEF · ON-TIME, IN-FULL, ERROR-FREE

Score every delivery On-Time, In-Full, Error-Free. Peer stars and RIAD risk logs follow the relationship, and ratings are bilateral after trade, not vanity reviews.

For a small supplier, that record becomes a reputation it can carry into the next conversation, rather than starting from zero every time.

THE PURCHASE-ORDER LOOP

Purchase orders move through the same states on both sides. When the goods arrive, the buyer scores the delivery and rates the partner, and the score follows the company across the network.

Suppliers · OTIFEF portfolio. Product view from supplieradvisors.com · sample data, not real companies.

SIX LAYERS OF TRUST

Verified companies

Company verification and certificate metadata, so counterparties know who they trade with.

Lot-level traceability

Product → lot → warehouse → movement → QA. Mock recalls and hold gates before goods leave the gate.

Quality release gates

Inspections that block ship. HACCP CCPs. Auditor export packs when regulators call.

SHEQ operators use

Incidents, hazards, NCR/CAPA wired to the same inventory that runs the business.

On-chain pedigree

Optional product passports and PO escrow when capital or authenticity must be proven.

Peer ratings & RIAD

Bilateral stars after trade and RIAD risk logs that follow every supplier relationship.

PAID CIPC VERIFICATION · R69 ONCE · 24-HOUR SLA

Pay R69

Once, via secure Paystack checkout.

CIPC match

Registration or VAT number checked with VerifyNow CIPC; legal names compared.

Public badge

On success your public profile shows the trust badge.

24-hour SLA

Target: badge, or a clear mismatch, within 24h of payment.

Free re-run

Pending or failed? Re-use the same payment; no second charge.

Service levels as published on supplieradvisors.com/verification-sla.

SUPPLIERADVISOR® · GET PAID

From PO to payment, on one set of books.

The commercial trail and the money trail are one, with optional escrow where settlement needs proof.

Being trusted means little if the invoice is lost in an inbox. On SupplierAdvisor®, the commercial trail and the money trail are one: every PO rides a trusted relationship, and every invoice lands in the same ledger.

Network

Company-to-company connections, pricing edges with connected companies, marketplace reach and invites, so every PO rides a trusted relationship, not a cold email.

Suppliers (SRM)

Discover verified partners, connect on-platform, raise POs with optional on-chain escrow, and run OTIFEF scorecards after every delivery.

Customers (CRM)

Pipeline, quotes, sales orders, invoices and loyalty, plus platform invites that turn buyers into live trading edges. Leads → quotes → orders → AR.

Finance

Double-entry CoA, journals, AR/AP, payments, bank import, VAT, fixed assets and management accounts, with live bank feeds on selected banks (FNB Integration Channel and BankLink open banking).

In-app messaging

Internal team threads and external threads with connected suppliers and customers on the same model, not email silos.

Customers · pipeline and revenue desk. Product view from supplieradvisor.com · sample data.

OPTIONAL ESCROW

Where settlement needs stronger proof, optional wallet-signed escrow on purchase orders is available, without forcing crypto on every workflow.

FOUR STEPS FROM SIGN-UP TO PROOF

1

Register & verify

Company profile, team, certificates. Multi-entity groups get separate workspaces.

2

Connect & trade

Invite suppliers and customers. Handshakes, POs, docs, OTIFEF scorecards.

3

Operate the chain

Inventory, manufacturing, distribution, finance: one membership-scoped OS.

4

Prove & improve

SHEQ, QA holds, traceability, CAPA and auditor packs when it matters.

SUPPLIERADVISOR® · CORE OS

Not a pile of apps. One operating system.

Every module shares the same command chrome, so teams switch systems without relearning the UI.

Not a pile of apps: a single operating system for how goods, money and trust move through African and global supply chains. Every module shares the same command chrome, so teams switch systems without relearning the UI.

Operations

End-to-end control tower

Procure, receive, store, make, ship and fulfil on one live tower; exceptions surface first.

Suppliers (SRM)

Trust you can measure

Discover and invite, POs with optional escrow, OTIFEF scorecards, peer ratings and RIAD.

Customers (CRM)

Lead → loyalty in one flow

Leads and opportunities, quotes → orders → AR, buyer portal and reviews.

Inventory

Every unit has a home

SKU master, multi-site stock, QR receive, GPS transfers, lots and serials, on-chain passports.

Network

Verified trading graph

Connection graph, pricing edges, marketplace reach and business invites.

SHEQ

ISO 45001-ready control tower

Incidents, HIRARC hazard scores, NCRs and CAPAs; failed QA inspections auto-raise NCRs.

Quality & food safety

Inspect · hold · trace · recall

Holds that block shipping, HACCP plans with CCPs, lot pedigree, recall drills, auditor packs.

Finance

One ledger of truth

Journals and GL, bank allocation, VAT, fixed assets, budgets and management accounts.

Projects

Portfolio that ships

Portfolio, kanban boards, milestone gates, timesheets and risk registers.

Impact (ESG)

Carbon you can act on

Scope 1–3 style carbon tracking and report packs wired to real inventory and logistics.

Intelligence

Signal over noise

Live pulse across network, supply, demand, finance and ops, plus Super-Cube® leadership.

INCLUDED IN CORE

Control Tower, Company (identity, modules, billing), Network, Suppliers, Customers, Inventory, Operations, Quality, Finance, Intelligence and Guide: one workspace, one trust fabric.

Module list as on supplieradvisor.com. Core OS is R299/mo per company after the 30-day trial (page 13).

SUPPLIERADVISOR® · HOW IT FITS

Start with Core. Layer what you need.

Sector and industry packs for how you trade; public-sector and custom design are specialist-led.

Every company starts with the same Core operating system, then layers sector and industry packs for how it actually trades. Public-sector programmes and fully custom process design are specialist-led.

Core OS R299/mo Trade, ops, finance, assure and insight: the foundation every company starts with.	Sector Shape the workspace Manufacturing, distribution and container outlets for secondary and tertiary operations.	Industry +R199/mo each Industry hubs for primary production and services, without removing Core process trees.	Government Specialist setup National → Provincial → Municipal → Local workspaces: SchoolAdvisor®, HealthAdvisor®.	Bespoke Process design Custom workflows, multi-entity models and integrations when your group runs differently.
--	---	--	---	---

SECTOR MODULES

Manufacturing FACTORY PHYSICS BOMs, master production schedules, MRP, work centres and work orders with OEE-style throughput.	Distribution DOOR TO DESTINATION Inbound and outbound logistics, carriers, fleet and drivers, Incoterms® 2020 and event-level tracking across road, ocean and air.	Containers LAST-MILE OUTLET NETWORK Container retail outlets, contractors and resellers, live stock, jobs and meals impact, and feasibility models.
---	--	---

ALSO INCLUDED

SAM messenger SAM (Grok), the SupplierAdvisor® Messenger: in-app setup and how-to without a manual.	Guide In-app how-to curriculum for every module.	Sales contractors Pipeline, quotes and personal commission (4–6% programme).	Supply-chain referral Earn 6/3/1% of partners' subscriptions (max 10%).
---	--	--	---

SUPER-CUBE® INSIDE SUPPLIERADVISOR®

Software for the chain. Development for the humans who run it.

Super-Cube® is a doctoral leadership model embedded in the product, so teams grow decision quality alongside OTIFEF, cost centres and compliance. Super-Cube® is Big Five Learn's leadership model, the Educate pillar of the same Group.

SUPPLIERADVISOR® · INDUSTRY ADVISORS

Vertical depth, one pack at a time.

Industry Advisor packs are R199/mo each, on top of Core. Enable only the packs you need.

Industry Advisors add vertical depth with diaries, waitlist desks, industry PWAs, rooms, marketplace listings and in-app messages. Enable only the packs you need from Company → Modules. Most Advisors bill the operating company a subscription; members and patients never pay SupplierAdvisor®.

PRIMARY & MAKE

CropAdvisor®

Agri production OS

Fields, harvest, inputs, fleet fuel, labour, regen metrics and farm-to-buyer trade.

QuarryAdvisor®

Aggregates & extractives OS

Sites, reserves, plant, weighbridge, fleet, QA and permits.

ApparelAdvisor®

Apparel OS for factory and brand

Range, landed-duty BOM, critical path, QA holds that stop ship, wholesale ATS, buyer PWA.

ConstructionAdvisor®

Contractor OS for building

BOQ quotes, dated plan vs actuals, claim → certify → client pay, client/contractor PWA.

FITNESS & CLINICAL SERVICES

GymAdvisor®

Gym & fitness services OS

Coaches, rooms, packs, waitlist, phone check-in QR, member PWA, marketplace.

PhysioAdvisor®

Physio & allied health OS

Exclusive diaries and rooms, waitlist, treatment plans, POPIA, Rehab PWA.

DentalAdvisor®

Dental practice OS

Multi-chair diary, waitlist, treatment plans, Chart PWA, marketplace.

PsychiatryAdvisor®

Mental health practice OS

Exclusive diaries and rooms, waitlist, treatment plans, Records PWA.

MedicalAdvisor®

General & medical practice OS

Multi-room diaries, waitlist, treatment plans, Rx on visits, Records PWA.

VetAdvisor®

Veterinary practice OS

Vets, clients, animals, consults, vaccines, waitlist, Pets PWA.

HIRE & RETAIL

HireAdvisor®

Hire / rental marketplace

Plant, tools, party gear and events kit; members hire free; 2.5% on the listing business.

RetailAdvisor®

B2C till · QR / NFC pay

Catalogue, cash or QR / NFC pay on SA Member; collect gym, clinic and hire bills at the counter.

Industry list as on supplieradvisor.com/industries. SchoolAdvisor® and HealthAdvisor® are government programmes, not private packs (page 9).

SUPPLIERADVISOR® · GOVERNMENT (B2G)

SchoolAdvisor® and HealthAdvisor®.

Public-sector programmes on the same OS, set up by a SupplierAdvisor® admin.

Transparent supplier discovery, documented trade, verification and export packs, plus SchoolAdvisor® (NSNP / DBE · public sector only) and HealthAdvisor® (DoH) programme pathways on the same platform. Government programmes are set up by SupplierAdvisor® admin.

SCHOOLADVISOR® · NSNP / DBE

SchoolAdvisor® runs only on the government / public-sector pathway: DBE and PEU govern catalogue, menus and compliance; schools run kitchen, learners, approved brands and serve day; service providers (SPs) deliver against school POs. Not a private industry pack.

DBE / PEU

Catalogue ·
menus · PEU
visits · claims

**School
kitchen**

Stock · orders
· serve day ·
prizes

SP supply

PO → deliver
→ POD · SLA

National → **Provincial** → **Municipal** → **Local**

HEALTHADVISOR® · DOH

HealthAdvisor® brings Department of Health facility pathways onto the same OS, as an admin-set-up government programme rather than a private pack.

ACCESS

Government (B2G) is not self-serve: national, provincial or municipal offices submit a request, and a SupplierAdvisor® admin approves it before the workspace opens.

[Request government access](#)

WITHOUT ONE SYSTEM

- Opaque supplier selection
- Audit packs assembled after the fact
- No performance trail on suppliers
- Programme ops split from procurement systems

WITH SUPPLIERADVISOR®

- Verified company graph and peer ratings
- OTIFEF and SHEQ / NCR trails for oversight
- SchoolAdvisor® process design (DBE · school kitchen · SP)
- HealthAdvisor® facility pathways on the OS

CASE STUDY · DBE × KZN SCHOOL NUTRITION**~6,000**

KZN schools

~1,800

Service providers

Big Five Connect runs SupplierAdvisor® so the Department of Basic Education can align school nutrition delivery across KwaZulu-Natal: service providers and schools on one verified operating fabric, where approved products, menus and compliance incentives live in the same place as trade.

Approximate programme-scale estimates for the case study, not a real-time census. Confirm live scope with Big Five Connect. Full case study: bigfivegroup.africa/connect.

SUPPLIERADVISOR® · SA MEMBER (B2C)

One free account for every business you use.

No subscription and no platform take-rate: brands charge their own prices, and you pay them.

Create one free SA Member profile. Link it to any gym, clinic, hire desk or shop on SupplierAdvisor®, then manage that account: book, buy, check in, family, waitlist, subscriptions, medical records, pay and proof, and push alerts. Desks can still print a QR or send WhatsApp.

ALWAYS FREE FOR MEMBERS

No subscription, no platform take-rate. Brands charge their own gym, clinic or hire prices. You pay them, not us.

WHAT A MEMBER CAN DO

Install as an app

Add to the home screen: a full-screen PWA for shop, brands, check-in and your profile.

Create & verify yourself

Name, email, phone, city. SA ID via VerifyNow or passport via Didit.

Link any business

Search a company, scan a desk QR, or tap Add to wallet on its public page.

Book your Advisor

Medical, dental, physio, psychiatry and gym: open diary slots on your phone.

Hire golden path

Request → docs → approved → pay → out → return → done, with next action and deposit.

Shop sale & hire

Browse what brands are selling or hiring out, and listed gyms and clinics.

Gym class check-in

Scan the studio QR; your coach and the desk see you are in.

Family & household

Book a child or household attendee onto a class or clinic slot.

Waitlist + calendar

Join the waitlist when a slot is full; download .ics or open Google Calendar.

Pay & proof of payment

See charges from the gym or clinic, pay in-app, or upload proof.

Your medical information

Allergies, scripts, medical aid and care notes your practice shares.

Share your care profile

Consent to share care notes with another linked Advisor desk.

Push alerts

Appointment reminders, waitlist offers and hire updates on your phone.

Reviews after visit or hire

Rate the gym, clinic or hire desk once the visit or hire is done.

Dual-life identity

One login for your personal wallet and any company you operate, kept separate.

[Create a free account: supplieradvisor.com/me](https://supplieradvisor.com/me)

SUPPLIERADVISOR® · COMPARE

Spreadsheets, accounting, ERP, or one OS.

Why a supply-chain OS, rather than another app beside the spreadsheet.

Spreadsheets fragment truth. Accounting clouds stop at the books. Major ERPs take years and seven figures. SupplierAdvisor® is the supply-chain OS: network and in-app messaging, ops, finance, quality, people, trust and Industry Advisors in one membership.

FLEXIBLE BUT FRAGILE**Excel / Sheets**

Everyone can edit.
Nobody owns a single source of truth. No network, no holds, no OTIFEF, no group tree.

BRILLIANT FOR BOOKS**Xero-class accounting**

World-class ledgers and bank feeds, but not a full supply-chain, multi-entity group OS or trading graph.

POWER AT A PRICE**Major ERP**

SAP, Oracle, Dynamics: deep modules and hierarchy, 12–24 month projects, enterprise licence gravity.

THE SUPPLY-CHAIN OS**SupplierAdvisor®**

Network, ops, finance with live bank feeds on selected banks, people, Industry Advisors, branded PWAs and free SA Member.

BEFORE → AFTER**BEFORE: SCATTERED TOOLS**

Excel / Sheets Email POs Xero / Sage
WhatsApp ops Separate WMS
Standalone CRM SHEQ PDF packs
HR folder + payroll bureau

**AFTER: ONE MEMBERSHIP**

Network & trust SRM + CRM + POs
Inventory · lots · holds Make · ship · fulfil
Finance + bank + BS SHEQ · HACCP · CAPA
People · payroll · org Intelligence + SAM

TIME TO VALUE**Go-live in days**

SaaS onboarding, not a 12–24 month ERP programme.

Transparent ZAR pricing

No seven-figure licence: one company plan after the trial.

Phone, tablet, desktop

Command centre, finance cards and ops built for mobile and tablet.

Comparison is illustrative of typical capability classes (spreadsheets, cloud accounting, enterprise ERP suites), as on supplieradvisor.com. Individual products and add-ons vary.

SUPPLIERADVISOR® · TRUST & SECURITY

Controls where trade happens.

Only what is live on supplieradvisor.com today.

Role-based access

Owner, admin, finance, ops, viewer, sales contractor: module rights per person.

Company-scoped data

Membership gates every API. Multi-entity groups keep workspaces clean.

Audit-ready trails

Journals, PO status, QA holds, CAPA and activity logs for scrutiny.

Cloud Postgres + RLS

Supabase-backed, with row-level security patterns and service isolation.

Modern auth

Privy-based sign-in with team invites: no shared hero passwords.

Controls where trade happens

SHEQ, holds and verification live in the same OS as POs and stock.

WEB PROTECTIONS

- ✓ HTTPS only, with HSTS
- ✓ An enforced Content Security Policy
- ✓ Framing blocked (X-Frame-Options: DENY) and a strict referrer policy

BUILT FOR AFRICA

- ✓ CIPC company verification via VerifyNow, with a 24h paid SLA
- ✓ SA ID (VerifyNow) or passport (Didit) checks for members
- ✓ Paystack billing in ZAR · Apple Pay ready

Quality · holds and inspections. Product view from supplieradvisor.com · sample data.

PRIVACY · POPIA

Personal information is handled in line with South Africa's POPIA: you may request access, correction, deletion or restriction of personal information, and object to certain processing. Clinical Advisors carry POPIA notices on patient portals. supplieradvisor.com/privacy

Web protections checked on www.supplieradvisor.com response headers on 7 October 2026.

SUPPLIERADVISOR® · PRICING

Start free for 30 days. Then R299/mo.

One company plan, unlimited users. Prepaid tiers save up to 30%. No card to start the trial.

FREE TRIAL

30 days

The full platform for your whole team. No card required; cancel anytime.

CORE OS · PER COMPANY WORKSPACE

R299 / month

Monthly list rate after the trial, with unlimited team users. Secure Paystack checkout in ZAR.

MONTHLY OR PREPAID

PLAN	TERM	PRICE	SAVING	EFFECTIVE
Monthly	Monthly list rate	R299	List rate	R299/mo
1 year	12-month prepaid term	R3 050	15% (R538)	~R254/mo
2 years	24-month prepaid term	R5 382	25% (R1 794)	~R224/mo
3 years	36-month prepaid term	R7 535	30% (R3 229)	~R209/mo

EVERY PLAN INCLUDES
